

Request for Christmas Cards for Hospitalized Patients

On behalf of the Stewart Nicks School Community Council (SCC)

Dear Parents and Guardians,

This holiday season, our School Community Council is inviting families to participate in a meaningful act of kindness. We are asking for your support in helping our elementary students create Christmas cards and drawings for individuals who will be spending the holidays in the hospital.

A simple message of hope, a cheerful drawing, or a handmade card can bring tremendous comfort to someone experiencing a challenging time. With your assistance, students can brighten a patient's day and remind them that our community is thinking of them.

How you can help:

- Encourage your child to create a Christmas card or festive drawing on the card provided.
- Messages can be simple, positive, and encouraging—no personal information is needed.
- Please return completed cards to the school by **December 10th** so they can be delivered in time for the holidays.

Thank you for supporting this meaningful project and helping our students share the spirit of the season. Your participation will make a heartfelt difference to those who need it most.

Warmly,

The School Community Council (SCC)
